PAPE'S DIAPEPSIN FOR INDIGESTION OR BAD STOMACH

Relieves Sourness, Gas, Heartburn, Dyspepsia in Five Minutes

Sour, gassy, upset stomach, indigestion, heartburn, dyspepsia; when the food you eat ferments into gases and stubborn lumps; your head aches and you feel sick and miserable, that's when you realize the magic in Pape's Diapepsin. It makes all stomach misery vanish in five minutes.

If your stomach is in a continuous revolt—if you can't get it regulated, please, for your sake, try Pape's Diapepsin. It's so needless to have a bad stomach—make your next meal a favorite food meal, then take a little Diapepsin. There will not be any distress—eat without fear. It's because Pape's Diapepsin "really does" regulate weak, out-of-order stomachs that gives it its millions of sales annually.

Get a large 50-cent case of Pape's Diapepsin from any drug store. It is the quickest, surest stomach relief and cure known. It acts almost like magic—it is a scientific, harmless and pleasant stomach preparation which truly belongs in every home.—Adv.

School Re-opened After Being Closed On Account of Scarlet Fever.

The ten days' vacation, made necessary by a case of scarlet fever in the school, came to a close Saturday, Oct. 23, and school duties were resumed Monday as usual. While this vacation made it necessary to cancel the game with Goddard seminary, regular practice is now being held and the rest of the schedule will be played according to former plans.

The school is making an exhibit at the second "boys' and girls' agricultural and industrial exposition," held at Rutland Oct. 26, 27, 28, 29. There will be demonstrations of carpentry, forging, concrete work and etc., also work shown covering the different branches in the school course. Two members of the faculty and four of the students will be in attendance at all times. Professors E. F. Kirby and G. A. Meigs, also Shop Superintendent Ernest McIntosh are now in Rutland on business in connection with the exhibit at the exposition.

Elise—Oh, he's very amusing. It's better to feel that way about you than you think?—Judge.

STOMACH MISERY QUICKLY VANISHES

Your money back if you want it is the way in which the Red Cross Pharmacy, the popular druggists, are selling **Mi-o-na**, the great stomach remedy.

This is an unusual plan, but **Mi-o-na** has so much merit and is so absolutely trustworthy in relieving all forms of indigestion that they can but little risk in selling under a guarantee of this kind.

Do not be miserable or make your friends miserable with your dyspepsia. **Mi-o-na** will help you. If it doesn't, tell the Red Cross Pharmacy that you want your money back, and they will cheerfully refund it.

A change for the better will be seen from the first few doses of **Mi-o-na**, and its continued use will soon start you on the road to perfect digestion and enjoyment of food.

Mi-o-na has been so uniformly successful that every bar is sold under a positive guarantee of "money back if you want it" with every box of **Mi-o-na** that they sell. A person after like this special treatment for the cure of the stomach.—Adv.

SALE OF INTERNED LINERS BARRED

Gerard Cables that Germany Prohibits Transfer or Sale of Merchant Vessels.

Washington, D. C., Oct. 28.—Germany has prohibited transfer or sale of all German merchant vessels, including those interned, according to a cablegram yesterday from American ambassador Gerard.

The state department yesterday made the following announcement:

"The department has been informed by cable from Berlin that under a law of Oct. 21 the German government forbids any German citizen who owns or had a share in any merchant ship to sell or in any way dispose of his interest to any one who is not a subject of Germany.

"This law applies equally to German subjects in foreign countries."

The new German decree was believed by state department officials to be designed to conserve the German merchant marine for use after the war. It will prevent the sale or transfer of any of the 150 German merchant fleet now held in American waters.

The German law will remove a controversy involved in the administration's ship purchase bill it is believed. During the ship purchase bill fight last winter it was charged the administration contemplated acquiring some of the idle German vessels.

State department authorities said the German government could not enforce the new law against Germans now in the United States, but if such persons sold their interests in violation of the law they would be subjected to prosecution if they ever returned to Germany. In case of violation of the law, officials said also, Germany probably would not recognize the transfer of ownership, should such vessels ever enter German ports.

Getting Back at the Priest.

An Irishman was reproved by his priest for eating sausages on Friday.

"Sure, Father Tim, ye don't call sausages meat!" he protested.

"Certainly they are meat," said his reverence.

"But, Michael, I did not order any sausage; it was wood I ordered."

"And isn't it wood I've brought ye?"

"No, it isn't; it's sausage."

"But Father Tim, if sausage is meat, sure 'n't it sausage wood?"—Boston Transcript.

David Cunningham spent a week with relatives in Craftsbury recently.

Mr. and Mrs. Barrett of Peacham have moved into the tenement at the north end of the Farrington block. Mr. Barrett is to work for Fred Wales in his shop.

The Judith Lyford Women's club will hold their first regular meeting at their club rooms Tuesday, Nov. 2. Every member of the club is requested to be present.

Concede Greek Aid Out of Question

Admission that Britain Has Only 13,000 Men at Salonica Precludes Assistance.

Paris, Oct. 28.—The marquis de Launay's admission in the British House of Lords that England has only 13,000 troops at Salonica was regarded here as definitely disposing of any possibility of Greek participation in the Balkan campaign, at least at present.

How many French are on the Greek coast to help the Serbians has not been revealed, but it was thought unlikely that they fear outnumbered the British.

As a condition even to considering entrance into the war, Greece specified the presence of an adequate force of the allies. That she would demand 30,000 or 40,000 adequate was regarded out of the question.

Reports of a Greek clash, presumably with Bulgarians, though this was not specified, were believed to mean an unauthorized frontier skirmish, not surprising in view of present strained relations and too common in the Balkans to mean serious development.

WHAT CAUSES COLDS?

This question is asked every day. A cold is really a fever, not always caused by the weather but often due to disordered blood or lack of important food-elements. In changing seasons fat-foods are essential because they distribute heat by enriching the blood and so render the system better able to withstand the varying elements.

This is the important reason why Scott's Emulsion should always be taken for colds, and it does more—builds strength to prevent sickness.

Scott's Emulsion contains Nature's own strength-building fats, so skillfully blended that the blood profits from every drop. It is free from harmful drugs or alcohol. Sold at drug stores—always get the genuine.

IS THIS YOUR TROUBLE?

Some cases of "stomach trouble" are nothing but constipation.

All the symptoms of stomach and intestinal indigestion may be caused by constipation. The sufferer is distressed after eating, gas forms in the stomach and bowels, the abdomen has a feeling of pressure and weight and is hard and distended.

To correct constipation the first thing is to stop the use of strong purgatives and use instead the mild laxative pills, Pinkettes. These tiny pills may be used as long as required without the danger of a relaxing constipation.

If your own druggist does not sell Pinkettes they will be sent by mail, postpaid, on receipt of 25 cents by the Dr. Williams Medicine Co., Schenectady, N. Y. Write for booklet anyway.

Fresh Corn On the Cob —or Dry Kernels?

Fresh tobacco in the Sickle Plug or dried up particles of sliced or granulated tobacco? Real tobacco flavor depends upon the leaf being preserved in its natural state, possible only by pressing the leaves into plug form and keeping it in by covering it with a natural leaf wrapper. The natural flavor and strength of tobacco escape when cut or granulated.

Take a Plug of Sickle that is even thoroughly dried out so that when you whittle it off it crumbles into dust, but it will burn and smoke smooth and cool as it has all of its original tobacco flavor preserved, unevaporated in Plug Form.

Whittling a pipeful is little trouble, amply repaid in both quality and quantity. Try this experiment and judge for yourself.

Prohibition Invades Constitutional Rights.

The citizen has some constitutional rights which no legislature or Congress may invade. The Declaration of Independence holds that "life, liberty and the pursuit of happiness" are among the inalienable rights of men. The articles of confederation declare them entitled to "all the privileges and immunities of free citizens." The fourteenth amendment to the constitution of the United States declares that "no state shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States."

A state-wide prohibitory law would prohibit by law the sale of alcohol or alcoholic liquors for any purpose, thus restricting the constitutional right of a citizen to supply a proper demand in his own household.

Restricts Proper Use of Alcohol
If the proposals of the Perry referendum are enacted into law, it will be illegal to purchase alcohol or alcoholic liquors in the state for any of the following purposes:

For use in the liberal arts;
For use in nursing or medicine;
For use in scientific experiments;
For use as a stimulant for feeble or aged people;
For any use whatever, under any conditions whatever, if purchased in the state of Vermont.

Alcohol has a proper place in medicine and is prescribed by reputable physicians every day. Yet prohibition would make the filling of such prescriptions a crime. On the other hand, it permits the manufacture and sale in quantity of hard cider, one of the most insidious, demoralizing, alcoholic beverages manufactured under any law, well calculated to destroy manhood and moral fibre.

The proposed law is inconsistent, seeks to abridge personal rights and privileges, and has never proved to be efficient. The people of Vermont would better adhere to
